EDUCATION

University of Wisconsin – Eau Claire

Bachelor of Science

Computer Science – Software Engineering

> Recipient of International Student Scholarship since 2014

Eau Claire, WI

Expected graduation May 2019

PROFESSIONAL CONFERENCES

RubyConf 2018

- > Demonstrated my knowledge of Test Driven Development in a live code-refactoring session.
- > Networked directly with prominent figures at the largest annual conference for the Ruby programming language.

WORK EXPERIENCE

Foxconn Technology Group

Technology and Services Intern

Milwaukee, WI

Jan 2019 – present

- > Delivered a means of keeping employees better-informed by implementing an internal newsletter service using RESTful news APIs for seamless content flow.
- > Collaborated with teammates to integrate hardware components and test software for Foxconn's co-working facilities across the state of Wisconsin.

Learning and Technology Services

Full Stack Web Developer

Eau Claire, WI

May 2018 – Dec 2018

- > Worked closely with stakeholders at the School of Nursing to overhaul and deliver a Nursing Advising system for 1000+ past, present and prospective Nursing students.
- > Performed maintenance and implemented functional improvements on legacy Rails applications, all while gaining a deeper understanding of the development process and technology stack.

Learning and Technology Services

Help Desk Specialist

Eau Claire, WI

Jan 2017 – Dec 2018

- > Provided direct technological support for students, faculty, emeriti and alumni of UW – Eau Claire.
- > Analyzed and interpreted technical difficulties that clients face regarding both hardware and software.
- > Collaborated with co-workers to troubleshoot technology related problems in real-time.

SKILLS

Programming Languages

Java, Ruby, C, C++, JavaScript, Python, PHP, Haskell, HTML, CSS, XML, Shell

Technologies

Spring MVC, Ruby on Rails, jQuery, Git, Android Studio, SQL, Postgres, DBA, TDD

Spoken Languages

English, Urdu, Hindi

PROJECTS

Aesthetic Clinic

Rails Application

- > Implemented a Patient Record system for Dr. Obaidur Rehman's dermatology practice from the ground up.
- > Focused on improving front-end design and UX while establishing a useful and coherent system for medical administrators, all while maintaining the integrity and privacy of patients' records.

ReviewBot

Android Application

- > Engineered a sentiment-analysis application for movie reviews based on a Kaggle coding competition.
- > Explored powerful libraries that aid in serializing and preserving large amounts of data, helping me achieve a deeper understanding of Android's application lifecycle.
